

Swing Barrier

SB-SPL-310

Specification

- Product Size : 200*200*980mm
- Pass Width : 600mm (Optional : 900mm)
- Thickness : SS 1.2mm
- Housing Material : Stainless Steel 304
- Arm Material : Stainless Steel frame
- Pass rate : 20-25 Persons/minute
- Power Supply : 100-240V (AC)
- Operational Voltage : 24V (DC)
- Max Power Consumption : 35w
- Frequency : 50-60 Hz
- Working Temperature : -25 to +70°C
- Operating Modes : Bi-directional
with Single passage
- Operating Time : 0.2 Seconds

(M12X90mm Expansive Bolt)
